

Design choses

Name: Bob Borsboom

Student Number: 10802975

Course: Data Processing

Week: 4

- Amount of CL points in the x axis and revenue on the y axis for a good visualization. The amount of revenue influences the amount of CL points
- When moving over the dots, the club name pops up.
- The legenda is grouped by country to reduce the amount of dot-colors
- Dot-size is 10, because there are not that much dots and now they fit well
- Title is green because we talk about football
